

THE RINZ

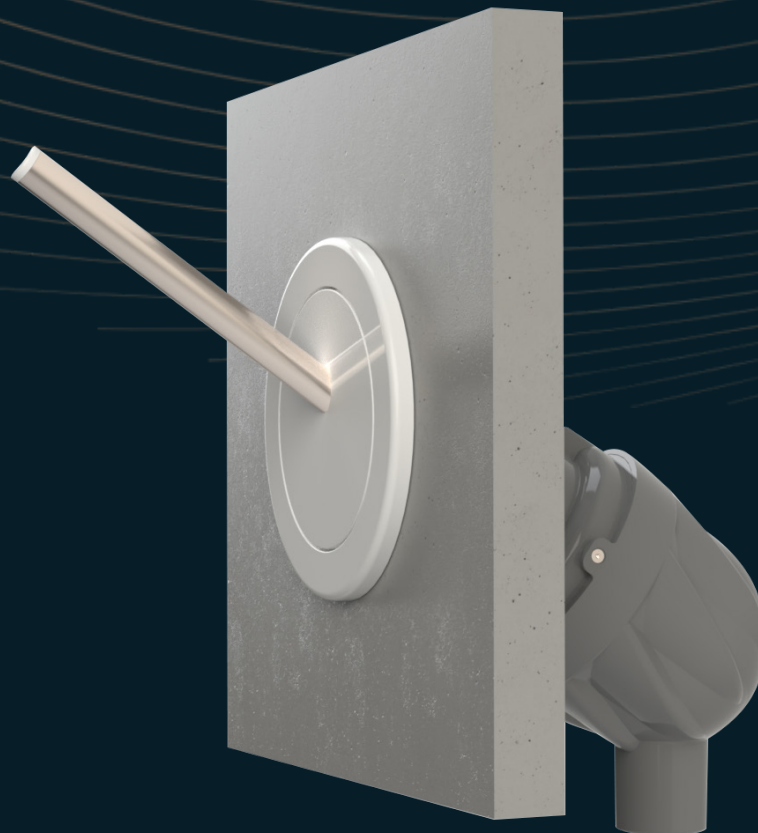

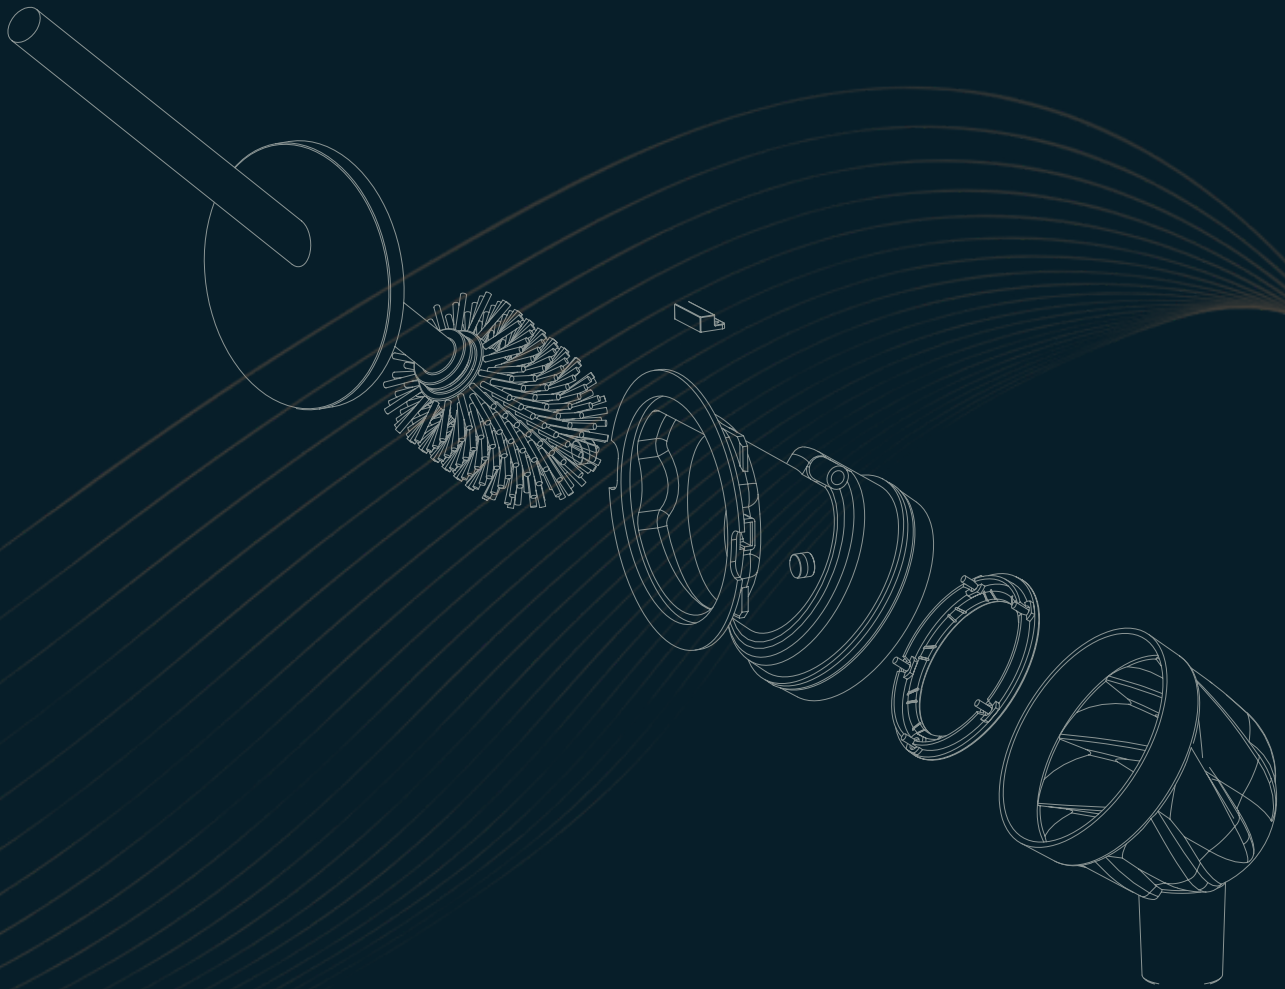

THE RINZ REVOLUTION ●

Setting a new standard in toilet hygiene.

We have reimagined a daily essential through efficiency, sustainability and elegant design.

Our **revolutionary toilet brush** combines technology, aesthetics and sustainability to turn a routine task into a cleaner, quicker and more hygienic experience.

A innovative and future-proof toilet brush.

The RinZ® is a self-cleaning system that uses hydrophobic materials, antimicrobial coating, and a smart waterflow mechanism that dries the bristles and holder after every use.

THE RINZ

*Clean smarter,
live better.*

Engineered to *blend* in your own home design or business premises. Visually and Physically.

A slim silhouette, matt texture and neutral tones fit seamlessly into any modern bathroom.

The magnetic wall-mount keeps the brush securely in place. Dry, hygienic and off the floor.

Redefining clean,
in a range of timeless tones.

Brushed Steel

Understated elegance that blends seamlessly into any modern space.

Chrome

Color and shine that delivers timeless elegance and effortless cleaning.

Brushed Gun Metal

The bold, sophisticated finish that brings industrial elegance and lasting allure to your bathroom.

Natural Brass

Embrace the evolving beauty of Natural Brass – a finish, developing a unique, warm patina with every touch.

The Rinz® comes in different shades to match your design.

Brushed Copper

Elevate your bathroom with the copper color – where warm, rustic charm meets modern durability.

Brushed Brass

The warm, golden tones with the soft, brushed texture give a modern yet timeless look.

Soft White

Understated elegance that blends seamlessly into any modern space.

Custom made color and logo

Lets you personalize your brand with unique hues that stand out.

*Better hygiene,
more impact.*

The Rinz® is more hygienic than any other brush on the market. No water or dirt is left in the brush holder after use. No puddles, no bacterial buildup, no floor clutter. It is not just cleaner. It is practically invisible.

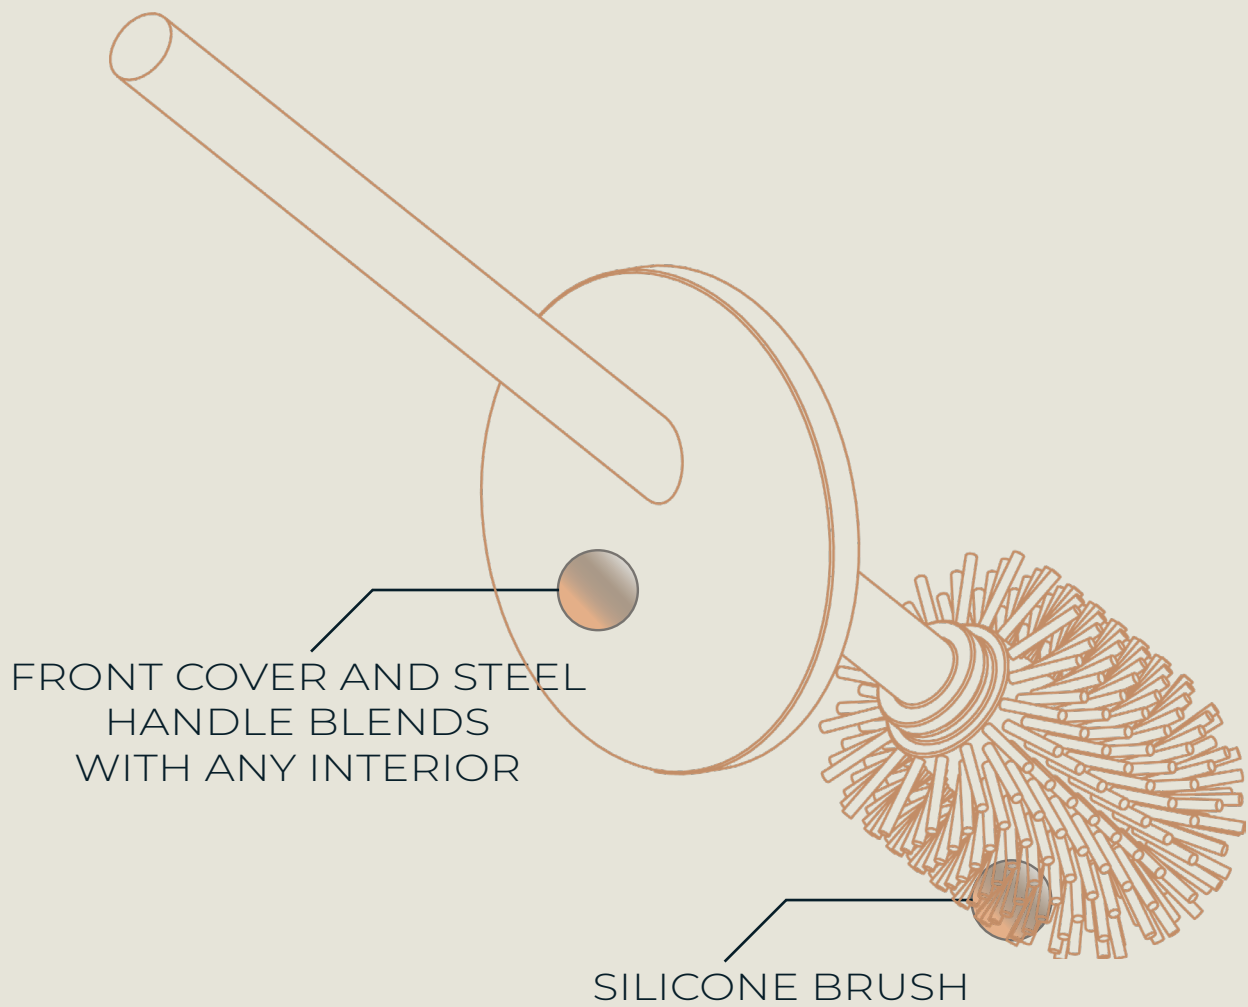

What about waste?

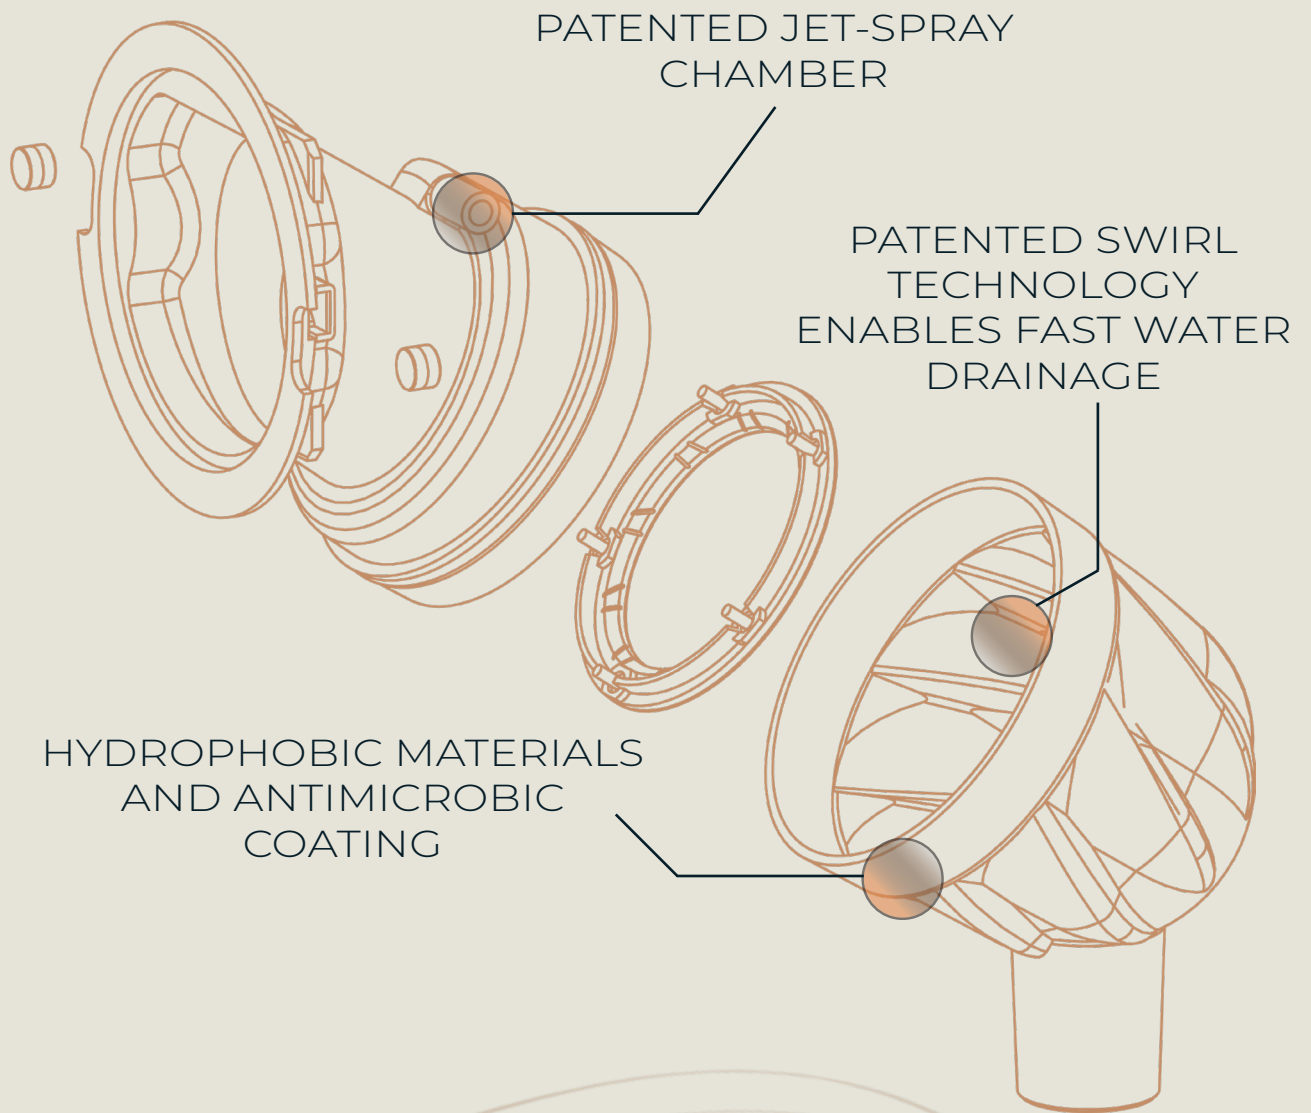

Disposable plastic brushes contribute to millions of tons of waste every year.

Our solution is built to last. Made from recycled materials, with **replaceable silicon** heads. One brush equals to 6 - 10 regular brushes.

THE RINZ

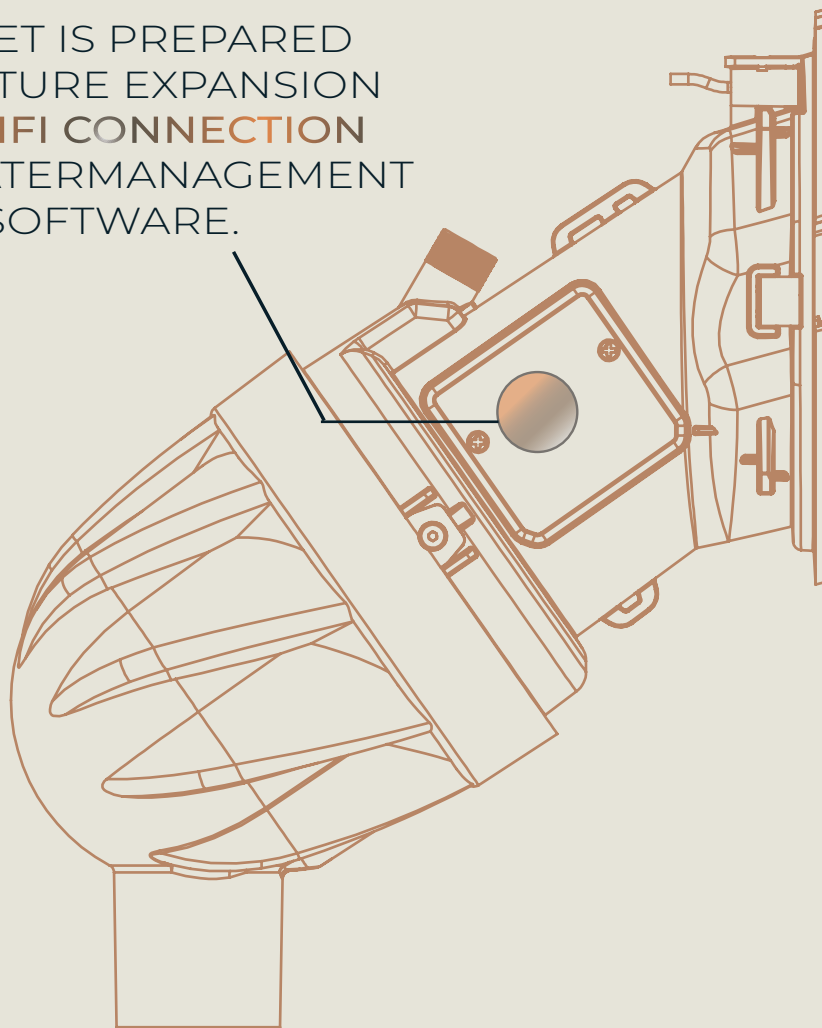

Watermanagement - in development -

The Rinz® chipset is prepared to connect with wireless adapters for *wifi connectivity*.

This will make future watermanagement possible with software and mobile apps. To help you monitor water usage every day and to wirelessly trigger a water flush in multiple rooms, in preventing danger of legionella bacteria.

CHIPSET IS PREPARED
FOR FUTURE EXPANSION
FOR **WIFI CONNECTION**
WITH WATERMANAGEMENT
SOFTWARE.
